BULLETIN NO. 39

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN
Department of Agriculture

ENROLMENT AND REGISTRATION
OF
STALLIONS IN SASKATCHEWAN

By W. F. WINDEATT
Assistant Live Stock Commissioner

PUBLISHED BY DIRECTION OF
THE HON. W. R. MOTHERWELL, MINISTER OF AGRICULTURE

REGINA:
J. W. REID, GOVERNMENT PRINTER
1914

ACKNOWLEDGMENTS.

The Live Stock Branch of the Saskatchewan Department of Agriculture gratefully acknowledges the assistance it derived from Report No. 2, issued by the Kansas State Live Stock Registry Board, particularly in respect to the article dealing with the Nonstandard Bred Stallion.

Special acknowledgment must be made of the able service rendered to the department by Mr. John W. Brant, accountant, Canadian National Live Stock Records, Ottawa, Ontario, for the painstaking care displayed by him when revising the manuscript of that portion of the bulletin dealing with certificates of registration issued by horse recording associations not recognised by his office. The compiler of this bulletin feels that this is a fitting opportunity to place on public record his hearty appreciation of the invaluable help which Mr. Brant has so cheerfully and ably given to the department not only on the present occasion but also in the past.

PREFACE.

Realising the urgent need of supplying accurate information along the lines of the stallion law as outlined in The Horse Breeders' Act of 1912, the Live Stock Branch of the Provincial Department of Agriculture has compiled the following bulletin, which briefly explains the manner of the enrolment of stallions in Saskatchewan, as well as the procedure required to record horses by registration in the stud books of their breeds under the system controlled by the Canadian Live Stock Records, Ottawa, Ontario. Stallion owners should pay particular attention to the explanations given, especially in regard to any points that they are not quite familiar with, as the matter contained in the bulletin is intended to be more of an educational nature than any attempt at a legal exposition of The Horse Breeders' Act. In any event it should prove time well spent for those having a live interest in the horse breeding industry of Saskatchewan to read carefully and thus profitably to understand the various subjects treated of in this bulletin; and, if it assists the horse breeder to acquire a better knowledge of the workings of the Act, even in some slight degree, then its purpose will have been accomplished.

W. F. WINDEATT,
Assistant Live Stock Commissioner.

DEPARTMENT OF AGRICULTURE,
REGINA, SASK.,
November 12, 1913.

ENROLMENT OF STALLIONS.

Explanation of the Stallion Enrolment Law.

The object of this bulletin is to explain as briefly and simply as possible the new stallion enrolment law of Saskatchewan, known as The Horse Breeders' Act, which came into force on August 1, 1912. This Act should be carefully studied by all stallion owners so that they may know just what the law means and requires and thus save themselves unnecessary trouble and inconvenience in using and advertising their stallions. For the benefit of those horsemen who may not fully understand the new Horse Breeders' Act a general explanation of the more important sections, especially those concerning the stallion owner, is here given.

Annual Enrolment.—Section 3 of The Horse Breeders' Act says, in substance, that every person, firm or company standing or travelling a stallion or jack for profit or gain in the Province of Saskatchewan shall annually cause the name, description and breeding of such stallion to be enrolled in the department before the first day of May in each year, and shall procure a certificate of enrolment. This clearly means that every owner of a stallion shall every year before the first day of May have had either his stallion enrolled or the old enrolment certificate renewed or transferred by the department before he may lawfully stand or travel his horse for profit or gain. In the licensed stallion district it is also necessary to have, in addition to the pure bred enrolment certificate, a license that is in force for the current season.

Transfer of Enrolment.—The mere possession of an enrolment certificate made out in some other person's name does not give the present owner of the stallion a valid right to travel or stand the horse for profit or gain. This is a violation of the law, and the offender on summary conviction of such an offence is liable before a justice of the peace to a penalty not exceeding $100 and not less than $10.

Renewals.—Stallion owners are urged to bear in mind the fact that the life of a stallion enrolment certificate is good for *one year only*, and the date of expiration is legibly stamped on each certificate. In view of this stallion owners should send in their animals' certificates of enrolment as soon as possible after the breeding season is finished and have the certificates renewed in readiness for next season's work. The fee for the renewal of a certificate is fifty cents. A renewal promptly attended to saves the owner in the long run both time and money, while the delinquent owner frequently incurs the penalty of a fine and is subjected to the annoyance voluntarily inflicted on himself through neglect or ignorance of the law.

Posting up of Enrolment Certificates.—Section 4 of the Act requires that the owner of any stallion or jack shall post up or keep affixed during the whole of the season copies of the enrolment certificate of his horse

THE VALUE OF A CANADIAN CERTIFICATE OF

A careful scrutiny of Plate I shows that the Canadian certificate of registration for the Clydesdale stallion PRIDE OF FULLARTON [13606] was originally recorded by the breeder, Thomas Hanson of Motherwell, Ontario, on May 31, 1912. The stallion was afterwards sold to John Vershine of Langham, Saskatchewan, on April 15, 1913, and the transfer of ownership recorded in the breed records at Ottawa on July 14th of the same year. (See Plate II.)

The Saskatchewan Horse Breeders' Act requires the Canadian certificate of registration to be submitted with the application for enrolment and it must show that the ownership of the stallion to be enrolled has been recorded at Ottawa in the applicant's name.

The reason for this procedure is past neglect on the part of previous owners of pure bred stallions to obtain either from the breeder or vendor they purchased from

REGISTRATION FOR ENROLMENT PURPOSES.

the transfers necessary to enable them to record their ownership with the authorities at Ottawa.

Another reason for insisting on up-to-date registration of ownership of horses is that it appears to be open to question whether it is lawful to sell an animal whose certificate of registration is not in the vendor's name. Proof of ownership in a pure bred horse can be authenticated only when the certificate of registration gives that information. The certificate should show the owner's name either as the breeder of the animal, or as the person to whom its transfer is recorded in the stud book of the animal's breed. Therefore, if the vendor has not previously recorded his ownership in a pure bred horse he is selling, he cannot give a valid transfer to the purchaser and, in consequence, the ownership of the horse by the purchaser is doubtful for the reason that he is without title to the property he has purchased.

in a conspicuous place both within, and upon the outside of the main door leading into, every stable or building where the stallion or jack stands regularly for service. Plate III on page 17 shows a specimen stallion poster, which meets the requirements of The Horse Breeders' Act. The owner of the stallion or jack whose posters comply with the Act may lawfully affix them in the positions specified by law, as they will necessarily contain copies of the animal's enrolment certificate.

Enrolment Certificate.—Enrolment under the provisions of The Horse Breeders' Act is for the purpose of granting official recognition to owners that their stallions have been permitted by the Department of Agriculture to be stood or travelled for profit or gain under certain restrictions anywhere in the Province of Saskatchewan. Certificates of enrolment are granted in accordance with the classification enumerated in sections 5, 6 and 7 of the Act, namely:

(1) A certificate of pure bred enrolment is issued in form B to the owner whose pure bred stallion is registered in a stud book which is recognised by the department. (For the list of horse recording associations whose stud books are officially recognised by the authorities of the Canadian National Live Stock Records, Ottawa, Ontario, see page 29 of this bulletin.) See also Plates I and II on pages 12 and 13 of this bulletin.

Deputy Minister of Agriculture.

Route Cards and Posters.—Section 9 of the Act deals very clearly with what is required in regard to advertising matter used in connection with stallions but owners have not always taken the necessary precautions to see that the printer strictly complies with the Act. In many instances route cards and posters have had to be done over again before the department could approve of them, and this extra work entailed additional expense and loss of time as the horses could not be lawfully stood or travelled while their bills were in open violation of the above mentioned section. The following requirements, the Act says, shall be observed and complied with by every person offering the service of any stallion for breeding purposes:

(1) The true description of the stallion as a pure bred, grade, cross bred or scrub animal shall be printed immediately above or below the name of such stallion *in letters at least one inch in height and of bold type.*

(2) No illustration, pedigree, description or other matter that is untruthful or misleading shall be used in any such bill, poster or advertisement.

(3) Every such bill, poster or advertisement issued shall contain a true copy of the certificate of enrolment for the current year of the stallion referred to therein and any such copy *shall occupy at least one-quarter of such bill, poster or advertisement.* (See Plate III, page 17).

(4) Two copies of every such bill, poster or advertisement shall be mailed to the Department of Agriculture, Regina, by the person or firm employed to print or publish the same.

Furthermore, section 10 states that the production of any bill, poster or other printed or written matter advertising any stallion for public service shall be *prima facie* evidence that such bill, poster or other advertising matter was used to advertise the stallion named and described therein by or with the consent of the owner of the said stallion.

PLATE III.

SPECIMEN STALLION POSTER

COCO VIII.

PURE BRED PERCHERON STALLION

Season 1914

This space is usually occupied by an illustration presumably purporting to be a photograph of the stallion advertised. Often there is not the faintest resemblance between the actual horse and the illustration. Unless a good picture of the actual horse is available, it is better not to use any illustration at all. The Horse Breeders' Act forbids the use of any misleading illustration.

Season 1914

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN

DEPARTMENT OF AGRICULTURE

Certificate No. 8701, issued in accordance with the provisions of The Horse Breeders' Act, Statutes of Saskatchewan 1912, Chapter 35.

Enrolment Certificate of Pure Bred Stallion

The pedigree of the stallion COCO VIII, imp. 16390] (99044) described as follows: Breed, Percheron; Colour, Dark Gray; Marks, Star; Foaled, May 13, 1909, has been examined in the department, and I hereby certify that the said stallion is of pure breeding, and is registered in a stud book recognised by the department.

Dated at Regina this twenty-fourth day of October, 1913.

A. F. MANTLE,
Deputy Minister of Agriculture.

This Certificate is not valid after December 31 **1913** unless renewed Dept. Ass't No. X599

This Certificate is not valid after December 31 **1914** unless renewed Dept. Ass't No. X601

Extract from Canadian Registration Certificate

COCO VIII (imp.) 16390] (99044) Dark gray, star, foaled May 13, 1909, bred by M. Paris, dept. of Orne, France, imported in October, 1911, by Thos. Jones, Pinkie, Sask. Next owner: April 27, 1912, John Brown, Regina, Sask.

DAM	SIRE
	Français (61885)
Poule (27622)	Blande (36577)
Rosette, belonging to M. Lessueur	Solide (438)

WILL STAND FOR THE SEASON OF 1914 AS FOLLOWS:

Monday	noon		night
Tuesday	noon		night
Wednesday	noon		night
Thursday	noon		night
Friday	noon		night
Saturday	noon		night

This route will be followed during the season, health and weather permitting

TERMS.—Fee to insure $00.00, due February 1, 1915. All mares at owner's risk. Persons intending to _____ sell mares or to remove them from the district before fees are due will be expected to pay the fees before doing so. (Any other lawful restrictions or stipulations may be included here at the pleasure of the owner.)

JOHN BROWN, Regina, Sask.

(See Page 18.)

The Specimen Stallion Poster.

Plate III is a half tone reproduction from the original specimen stallion poster, which, when photographed, measured 21 inches long by 14 inches wide. This illustration shows that the requirements called for in paragraphs (1) to (3) of section 9 of The Horse Breeders' Act respecting route cards and posters have been carefully fulfilled.

The attention of the reader is respectfully called to paragraph (1) of the section of the Act in question, and he will see on referring to Plate III that the classification of the stallion COCO VIII is given as "pure bred." The two words "pure bred" are printed in letters as big and heavy faced as the name of the horse and these are in proportion to the rest of the type used in the original poster and are at least one inch in height and of bold type.

Paragraph (2) of the same section of the Act is amply explained and reads as follows: "This space is usually occupied by an illustration presumably purporting to be a photograph of the stallion advertised. Often there is not the faintest resemblance between the actual horse and the illustration. Unless a good picture of the actual horse is available, it is better not to use any illustration at all. The Horse Breeders' Act forbids the use of any misleading illustration."

The next important requirement called for is that of paragraph (3) of section 9 of the said Act. On referring to Plate III the reader will see at a glance that at least one-quarter of the total space available on the specimen stallion poster illustration is occupied with the full wording of the enrolment certificate and, therefore, it necessarily complies with the requirements of the Act in that respect.

For the convenience of horsemen a special edition of the specimen stallion poster has been printed and a copy will be mailed to each printing office in Saskatchewan in ample time to prepare posters for the use of owners of stallions during the breeding season of 1914. Any owner of a stallion desiring a copy of the specimen stallion poster may procure one, free of charge, on writing to the Live Stock Commissioner, Department of Agriculture, Regina.

Owners to Report Deaths of Stallions.—Section 11 requires that the death of any stallion enrolled under The Horse Breeders' Act shall promptly be reported by the owner to the department and the certificate of enrolment of such stallion shall be returned to the department with such report. This has been already done in a number of cases since August 1, 1912.

Service Lien Registration.—This important matter is dealt with in sections 12 and 13 of the Act. Owners of *pure bred stallions only* are privileged to file a lien on the offspring of their stallions, and may do so in the following manner; That such owners must hold a current pure bred enrolment certificate, and such owners may either by themselves or through their agents file in the office of the registration clerk of the judicial district in which the owner of the mare served resides any time within twelve months after such service has been performed a statutory declaration setting forth (*a*) the fact of such service; (*b*) a reasonable description of the mare served; (*c*) the name and residence of the owner

of such mare; (*d*) the amount of the service due; and (*e*) that the service fee has not been paid. The fee for registering this lien is twenty-five cents and is payable to the registration clerk of the judicial district in which the lien is filed. See inset map showing areas of judicial districts of Saskatchewan.

The following form of affidavit may be used to advantage in filing a lien for service under The Horse Breeders' Act, as this procedure is all that is necessary to insure lawful protection for the collection of fees due to stallion owners.

LIEN FOR SERVICE.

Canada:
Province of Saskatchewan
To wit:

In the matter of *The Horse Breeders Act* and in the matter of
(*breed*)
Stallion
(*name*)
No.
(*enrolment number*)

I, (*name in full, no initials*)
of section township range meridian, or (post office) (*city, town, village or as the case may be*)
in the Province of Saskatchewan, (*occupation*)

DO SOLEMNLY DECLARE:

1. That I am the owner of (*breed*) stallion (*name*) for which certificate of enrolment No. issued under the provisions of section 5 of *The Horse Breeders' Act* on the day of 191 .

2. That the said (*breed*) stallion (*name*) performed service on the day of 191 , on a certain mare, described as follows:

Name , foaled , 191 , breed
colour , markings

3. That (*name in full, no initials*) of section township range meridian, or post office (*city, town, village* or *as the case may be*) in the Province of Saskatchewan, is the owner of the said mare (*name of mare*).

4. That the fee for the said service amounts to $.

5. That the fee for the said service or any part thereof was not at the time of the service and has not since been paid.

And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath and by virtue of *The Canada Evidence Act.*

Declared before me at the
of
in the Province of Saskatchewan
this day of 191 .

.....
(*Signature of owner.*)

.....
A J.P., Notary Public or Commissioner for Oaths.

Enforcement of the Lien.—According to sections 14 and 15 of the Act the owner of a pure bred stallion whose enrolment certificate for the current year has been issued by the department may proceed to enforce the lien on the offspring of his animal when the payment of the service fee has not been made before the first of January of the year following the birth of the colt or filly. The owner or his duly authorised agent may at any time before the first day of May in such year take possession of the colt or filly upon which he has such lien and shall forthwith proceed to sell the same by public auction after giving the person in whose possession the colt or filly was taken ten days' notice in writing of his intention to sell. The notice may be effectually served by delivering it in person to the owner of the colt or filly or by posting it upon the door of the owner's last known place of residence in the Province of Saskatchewan. The proceeds of the sale must be applied first in payment of the reasonable expenses of the taking of possession, giving of notice, and conduct of sale, which shall not exceed $10 in all; second, in payment of the service fee. The balance of the proceeds of the sale must be forthwith handed over by the owner of the stallion to the person from whose possession such colt or filly was taken.

In other words the procedure for a stallion owner to take for the recovery of the payment of service fee is as follows:

(1) He must register said lien within twelve months of the actual date of service;

(2) If the fee is not paid by January 1, following the birth of the colt, he can enforce the said lien before May 1 of the same year;

(3) Said lien is null and void after May 1, as above stated.

Penalties.—Violations of any of the provisions of *The Horse Breeders' Act* is an offence for which the offender shall be liable on summary conviction to a penalty not exceeding $100 and not less than $10.

Tariff of Fees.—The following fees are authorised under *The Horse Breeders' Act*:

On application for enrolment of a pure bred stallion	$2.00
On application for enrolment of a grade stallion.	3.00
On application for enrolment of a cross bred stallion	4.00
On application for enrolment of a scrub stallion	5.00
On every entry of transfer of ownership of an enrolled stallion	1.00
On every duplicate certificate issued of an enrolled stallion	1.00
For every certified abstract from the enrolment registers	.50
For annual re-enrolment of a stallion previously enrolled	.50
For examination for license	5.00

Regulations respecting Stallion Enrolment.—The following regulations have been in force since April 1, 1911:

1. Enrolment of a pure bred stallion (or transfer of enrolment) will be only granted by the department when the following conditions have been met:

(*a*) The stallion must be recorded in the Canadian National Live Stock Records at Ottawa, if there is a Canadian stud book for the breed to which the stallion belongs. (See page 29).

(*b*) The stallion must be recorded in the name of the person applying for the enrolment (or transfer of enrolment).

2. If a stallion belongs to a breed for which there is not a Canadian stud book, enrolment as a pure bred stallion will be only granted if the stallion is recorded in a stud book recognised by the Dominion Department of Agriculture and in the name of the person applying for the enrolment.

3. Canadian recording will be required in all cases as soon as a Canadian stud book for any breed is established.

4. To assist owners of stallions to secure proper recording of their animals the Department of Agriculture will undertake to have a stallion Canadian recorded, when the application for enrolment (or transfer of enrolment) is accompanied by a fee of $6 in addition to a fee of $2 for enrolment.

5. The Department of Agriculture will also undertake to have a change of ownership recorded when the application for enrolment (or transfer of enrolment) is accompanied by a transfer of ownership signed by the last recorded owner and accompanied by the necessary fee of 50c as well as by the enrolment fee of $2.

Objects of Enrolment in Saskatchewan.

1. To maintain a record of the number, location, breed, ownership, and age of the pure bred stallions in the Province of Saskatchewan.

2. To maintain a record, location, ownership and age of the grade, cross bred, and scrub stallions in the Province of Saskatchewan, and thus to keep a record of the proportion of each class.

3. To verify the certificates of registration of pure bred stallions and to compile other useful information relating to the improvements of the horse breeding industry of Saskatchewan.

4. To investigate suspicious or doubtful certificates of registration or other alleged misrepresentations relating to pure bred horses.

5. To investigate and settle, where possible, disputes and questions relating to pure bred horses.

Results Hoped for Under the New Act.

The following are some of the results hoped for under the provisions of The Horse Breeders' Act of 1912:

1. The prevention of misrepresentation in regard to the breeding of any stallions standing or travelling for public service in Saskatchewan.

2. The elimination from the breeding ranks of all horses the get of which are especially liable to be rendered unfit for useful service on account of undesirable conformation, hereditary unsoundness or disease.

3. The means of determining those stallions from which, on account of their superior type, conformation and breeding, may be expected progeny that will measure up to a uniformly satisfactory standard.

4. The proper registration in an official stud book controlled by the Canadian National Live Stock Records at Ottawa of many stallions whose eligibility may be satisfactorily proven, but who at the present time are not registered on account of lack of appreciation of such procedure on the part of the owner, or who, through ignorance, still remain recorded in an unauthorised stud book.

5. A more general stimulating of interest in the raising of suitable horses for the farm and others required for army remounts; and a wider dissemination of reliable information concerning the horse breeding industry of Saskatchewan.

6. The recording of all transfers of ownership without loss of time. In connection with the registration of colts it should be borne in mind that no animal can be recorded unless the sire is registered at Ottawa *in the name of the present owner.* (See Plate II, page 13.)

The Grade Stallion.

Great objection is taken by many owners of pure bred stallions to the enrolment of grade and scrub stallions under the new Horse Breeders' Act. In defence of the grade stallion it may be safely said that it is practically impossible to retire from service at this stage of the province's growth all but pure bred stallions, but the time will no doubt come when the area of the licensed stallion district will increase to such an extent that it will include at least three-quarters of the total area of Saskatchewan. While the grade sire is as a rule an uncertain proposition and his patronage is to be discouraged, there are undoubtedly several useful sires now in service for which a pure bred enrolment certificate could not be secured. What the law does in these cases is to prevent misrepresentation in the matter of a horse's breeding, thereby creating a sentiment in favour of the pure bred stallion, which may eventually result in his being the only class of horse authorised for public service in Saskatchewan.

Pointers for Saskatchewan Horsemen.

There is widespread need for more information and greater care in connection with recording and enrolling of stallions on the part of persons owning or breeding horses. Too often from $1,500 to $3,000 is invested by one man, or a syndicate of men, in a stallion without any steps having been taken to verify the statements of the vendor as to the breeding of the horse or its eligibility for enrolment in Saskatchewan as a pure bred stallion. The ability of the purchaser to charge and collect a service fee proportionate to the amount invested in the horse and to its value, is dependent upon him securing a certificate that the horse is enrolled as a pure bred; yet as a rule no steps are taken to ascertain whether the horse is question is eligible for such enrolment. As a consequence, it not infrequently happens that

a horse for which a large price has been paid, on the assumption that the animal is of pure breeding, can be only enrolled in this province as a grade because it is recorded in a register not recognised by the Canadian Records Committee.

Very little trouble arises from this cause in connection with stallions brought from the eastern provinces or imported from Great Britain; the former are usually Canadian recorded when purchased and the latter are Canadian recorded when imported in order to secure free entry. Most of the trouble and disappointment arises in connection with stallions that are brought from the United States. Many of these stallions are brought in in cars of settlers' effects and appear to escape paying duty whether grade or pure bred In consequence of this no attempt is made to have these stallions Canadian recorded and the purchaser or importer, unless experienced, does not know until he applies to this department for a certificate of enrolment as a pure bred, that his stallion is not eligible for Canadian recording and cannot be regarded as a pure bred in any province in Canada.

Thus the stallion invested in by such a person is decreased in value by at least 50 per cent. as soon as it reaches this side of the line. This would all be avoided if the purchaser applied to the Accountant of the Canadian National Live Stock Records at Ottawa for Canadian recording of his horse or for an import certificate. Even were there required from the vendor a definite guarantee that the stallion in question was eligible for Canadian recording (if there were a Canadian record for the breed) it would tend to make dealers in the United States more careful in their assurances and encourage them to inform themselves as to which horse registers are recognised in Canada and which are not. (See pages 29, 30.)

Hints to Stallion Buyers.

1. Do not buy a stallion or jack without first seeing his official certificate of registration. If you are in doubt about the genuineness of any certificate of registration write for information in regard to it to the Live Stock Commissioner, Department of Agriculture, Regina, who will promptly furnish you with the correct particulars and the class of certificate of enrolment that the animal is entitled to under the provisions of The Horse Breeders' Act.

2. See that the certificate of registration correctly corresponds with the official title of the breed of the animal's recording association mentioned on pages 61–63 of this bulletin.

3. See that no erasure or change of any kind has been made on the certificate of registration. Usually it is quite easy to detect such changes, as the ink will not be the same as that used elsewhere on the certificate.

4. See that the description of the stallion specified in the certificate of registration agrees exactly with that of the animal offered for sale concerning his colour, markings, etc. If the description on the registration certificate does not correspond with the stallion, promptly reject him, as it was probably written for a horse now dead.

5. File the lien on the offspring of your stallion promptly with the clerk of the registration court of the judicial district in which the owner of the mare resides, and you will have no trouble in collecting the service fee. See inset map showing areas of judicial districts of Saskatchewan.

6. Do not buy a horse afflicted with any of the diseases or unsoundnesses which disqualify a stallion or jack for license in Saskatchewan. Among those are bone spavin, bog spavin, side bone, curb, laryngeal hemiplegia (roaring or whistling), chorea (string halt), etc.

7. Do not pay cash for a pure bred stallion or jack unless you can have the animal's papers properly transferred over in your name at the time of delivery or, if bought on time, hold the last payment in the hands of your banker subject to the condition that transfer must be made of title in the stallion to your own name. This condition must be specified in any notes given by you otherwise they will not be binding on the seller. Protect yourself in regard to title in the stallion in the same way as you would in the purchase of any piece of land, namely: that the seller must produce a clear lawful title from himself to you in consideration of the payment of the amount of money agreed upon. If the seller refuses to do this, then you may safely refuse to do business with him until he can produce the Canadian certificate of registration showing that his ownership has been officially indorsed thereon by the authorities of the Canadian National Live Stock Records, Ottawa, Ontario.

8. No stallion should be purchased which does not possess a fully signed license certificate issued by the Saskatchewan Stallion Licensing Board, whether the purchaser is a resident in any unit of the licensed stallion district or not.

9. Remember that the Live Stock Branch of Saskatchewan includes among its other duties that of helping to build up the horse breeding industry of your province. If you desire to sell, buy, exchange, import, enrol, or license a stallion apply for the necessary blanks and information to The Live Stock Commissioner, Department of Agriculture, Regina, and a reply to your request will be mailed forthwith.

Suggestions to Owners of Mares.

Breed only such mares as are sound and use only registered stallions that are sound and of good conformation, and you will soon reap the reward of the wisdom and profit of this policy. Keep to the best obtainable pure bred stallions of the character and breed first chosen, and never outcross to any other breed. If you do not, the resulting progeny will be nondescript and the race will degenerate with each succeeding generation instead of improving. Avoid patronising unsound or scrub stallions no matter how low may be the service fee. A stallion that cannot secure a certificate of pure bred enrolment or a certificate of grade enrolment is a stallion that owners of mares are recommended to leave severely alone. Whenever possible give the preference to the registered stallion that has a license granted by the Saskatchewan Stallion Licensing Board, even if the service fees are higher than those of his mongrel competitors.

Take care to have the colts from your pure bred mares recorded as early as possible with the authorities of the National Live Stock Records, Ottawa, Ontario. Forms of application of Canadian entry in the stud book of almost any breed of horses can be got from the office of the Live Stock Commissioner, Regina. A request written on a post card will bring by return of mail the correct form of application of entry required, provided that the breed of the colt is given.

Precautions to be Observed in Regard to Certificates of Registration.

Strong emphasis is placed on the necessity of advising buyers of pure bred stallions or jacks to use every possible caution in regard to the certificates of registration handed to them at the time the animals are sold, as experience has proven that many buyers are easily imposed upon with flashily coloured documents purporting to be certificates of registration because such papers bear an imposing red or gold seal, or on account of the deceptive phraseology contained in the wording of the documents. Buyers of pure bred stallions must remember that registration in a stud book does not necessarily imply that the animal is pure bred or is entitled to a certificate of pure bred enrolment in the Province of Saskatchewan. Only stallions or jacks that are properly recorded in a stud book officially controlled or recognised by the authorities of the Canadian National Live Stock Records, Ottawa, Ontario, can be enrolled as pure breds in this province. In another part of this bulletin will be found a list of horse recording associations whose certificates of registration will be accepted as genuine by the Saskatchewan Live Stock Branch, and any stallions offered for enrolment, who are recorded in such associations, will be enrolled as pure breds only when the applicant's name has been indorsed thereon by the authorities at Ottawa, showing that he is the present owner of the animal offered for enrolment. (See page 29.)

The Value of an Officially Recognised Registration Certificate from a Breeder's Standpoint.

By consulting the list of horse recording associations approved by the authorities of the Canadian National Live Stock Records, Ottawa, the breeder may be able to know which associations are reliable and which are not, and should he wish to purchase a stallion for breeding purposes he has but to insist that the horse be properly recorded in one of these recognised and approved associations, which practically guarantees the genuineness of the stallion's breeding.

It is hoped that the publication of the data and facts obtained by the Live Stock Branch in its work of enrolling and licensing stallions standing or travelling for public service in Saskatchewan will be instrumental in creating a more general appreciation of the fact that there are differences in certificates of registration, fraudulent ones as well as genuine ones, and also in creating a more general appreciation of the value of an officially recognised registration certificate of a pure bred stallion.

The publicity given to certificates of registration of stallions is bound to create a spirit of pride and rivalry among horse breeders of Saskatchewan, and this will have a large influence in raising the standard of the class of stallions kept for public service in the whole province. Already since the coming into force of the new Horse Breeders' Act has this influence been noticed in a marked degree. The sale of French Draft stallions in Saskatchewan has fallen off considerably, and a Percheron stallion not recorded in the Canadian stud book of his breed is beginning to be viewed with suspicion. In consequence of the rigid administration of The Horse Breeders' Act of Saskatchewan, owners are awakening to the necessity of having a Canadian registration certificate for their stallions, and the demand is becoming imperative. It is in view of this that the Saskatchewan Live

Stock Branch has reason to believe that the class of stallions in the province will be greatly improved during the next few years.

Fraudulent Horse Pedigrees.

The following is an extract taken from the annual report of the Territorial Horse Breeders' Association, which was published as Appendix C in the 1902 annual report of the Department of Agriculture for the North-West Territories:

"A matter in which our breeders are interested and which calls for some remarks is the number of Percheron stallions brought into the West from the United States for breeding purposes. In this connection the following clipping from a Pacific Coast weekly is of interest:

"'William Penn Nixon, Collector of Customs, in a report to the U.S. Treasury and Agricultural Departments, charges S. D. Thompson with defrauding the United States and horse breeders of the country of many thousands of dollars in the past ten years. He is said to have done this by an elaborate system of bogus pedigrees furnished through the American Percheron Horse Breeders' Association, at 503 Tacoma Block, Chicago, Illinois. Under Thompson's management ordinary short bred stock is alleged in the report to have been imported, furnished with manufactured pedigrees, and sold for fancy prices and without payment of the 30 per cent. duty which is waived on imported stock for breeding purposes where three generations of ancestors can be shown. Inasmuch as 30,000 head of horses are said to have been imported alone, customs officials conjecture that the fraud, if one can be shown to have been perpetrated, was one of a wholesale character.'

"It may be mentioned that scores of Percherons have been sold in Western Canada accompanied with certificates signed by Mr. Thompson, the gentleman alluded to above. The attention of the customs authorities was several years ago called to the irregularities charged against Mr. Thompson, so that the American Percheron certificates of registration should be closely scrutinised in order that worthless scrubs furnished with pedigrees by the accommodating Mr. Thompson may not be palmed off on the unsuspecting stallion syndicates of Western Canada."

Horsemen are particularly requested to beware of Percheron certificates of registration known as Thompson "high numbers." For some time there has been a great deal of dissatisfaction and friction within what is now known as the Percheron Society of America, which was formerly known under the name of the American Percheron Horse Breeders' Association. The most serious cause of friction was created by the manner in which the affairs of the office were conducted. The feeling between the factions was very bitter and led to the reorganisation of the association under the name of the American Percheron Horse Breeders' and Importers' Association, with G. W. Stubblefield as secretary. Mr. Thompson, the former secretary, continued to issue certificates of registration in the stud book of this association. Pedigrees bearing the signature of Mr. S. D. Thompson, with numbers above 35,912 and issued after May 9, 1904, have been blacklisted.

Definition of Terms Used by Horse Breeders.

Pure Bred and Thoroughbred.—These two expressions are incorrectly used by many persons as if the meanings of the words "pure bred" and "thoroughbred" were the same. The term "thoroughbred" is only correctly used when it is applied to the breed of English racing horses known by that name. "Pure bred" is a term applied only to such animals whose breeding makes them eligible to be admitted for registration in the official records kept for the particular breed to which they belong. The rules of entry in the official records of the various breeds differ so much that it is not practicable to give an exact definition which would apply to all breeds. Further information on this subject will be found on pages 64–70 of this bulletin.

Pedigree.—This term is often used in reference to the official document properly known as the certificate of registration, which is issued by a lawfully recognised institution where the ancestry of the animal is recorded or registered. Literally speaking, all animals have a pedigree of some sort for all animals necessarily descend from ancestors. The value of a pedigree does not consist in the mere fact of possession, but in the information which it contains with regard to the ancestors of the individual animal under consideration. The ancestry recorded on the pedigree may have been of great individual excellence or otherwise, and it is of great importance that the breeder be in possession of this information when forming an estimate of the value of an animal. The purchaser of any animal for which a pedigree or a certificate of registration has been issued by the authorities of the Canadian National Live Stock Records, Ottawa, Ontario, may rest assured that he possesses a sufficient guarantee that the animal referred to in the document is of pure breeding.

Line Breeding.—The mating together for successive generations of animals of a common line of descent is termed line breeding. In other words line breeding may be described as restricting the selection of animals for mating to the members of a single family or strain. This system of breeding, when not carried to excess, tends to develop as far as possible the best that may be derived from one particular strain by concentrating the characteristics possessed by the family of animals selected.

Inbreeding.—This term is applied to line breeding when carried to excess through breeding together of sire and offspring, or of dam and offspring, or of brother and sister. All intelligent breeders agree in condemning close breeding because the vitality of inbred stock does not readily lend itself to the purpose of reproduction and sooner or later ends in sterility.

Grading.—This term is generally used when stock has been relatively improved by the continuous use of pure bred sires of the same breed, on grade females and their offspring. Considerable improvement in the quality of common stock may be brought about in the course of five generations if the mating of grade females to pure bred males of the same breed is practised. For instance, in the case of a grade mare bred to a pure bred Clydesdale stallion and the progeny of this union again bred to a pure bred Clydesdale stallion, with this continued for five generations, the colt from the last union will be eligible for registration, as it will have the five top crosses necessarily required before the animal can be recorded in the stud book of the Canadian Clydesdale Horse Association. It is

only right to mention that this grading up through top crossing is recognised for registration only in a few breeds, such as the Clydesdale, Shire and the Hackney.

Cross Breeding.—The produce of a pure bred sire and of a pure bred dam of different breeds is said to be a cross bred. While the practice of cross breeding is not generally recommended to horse breeders, it is carried on in some countries in the belief that the offspring will be superior to the pure bred animals of either of the two breeds used. It is not customary for the resulting progeny to be afterwards used for breeding purposes for the reason that it is not advisable to carry the operation further than the first generation. In view of this it is evidently far more profitable to select any one of the well known breeds of horses and stick to the one chosen rather than to experiment indiscriminately in cross breeding and thereby run the risk of producing worthless misfits.

STALLIONS enrolled by the Provincial Department of Agriculture, between August 1, 1912, and July 31, 1913, inclusive:

Breeds	Pure	Grade	Cross bred	Scrubs	Total
Clydesdale	953	110			
Percheron	315	88

RECOGNISED AND UNRECOGNISED STUD BOOKS AND RECORDS.

Recognised Canadian Records.

The Saskatchewan Department of Agriculture recognises the appended list of horse recording associations that have been incorporated in the records known as the Canadian National System:

Canadian Clydesdale Horse Association.
Canadian Hackney Horse Society.
Canadian Shire Horse Society.
Canadian Percheron Horse Breeders' Association.
Canadian Thoroughbred Horse Society.
Canadian Belgian Draft Horse Breeders' Association.
French Canadian Coach Horse Breeders' Association.
Canadian Pony Society.
Canadian French Coach Horse Breeders' Association.
Canadian Suffolk Horse Society.
Canadian Standard Bred Horse Society.

Recognised American and European Records.

The Canadian National Live Stock authorities at Ottawa accept as reliable, certificates of registration issued by the following horse and mule record associations:

Cleveland Bay Horse Society of Great Britain and Ireland.
Yorkshire Coach Society of Great Britain and Ireland.
American Morgan Register Association.
American Saddle Horse Breeders' Association.
Hunters' Improvement Society. (Great Britain.)
Landwirthschaftlichen Haupverein fur Ostfriesland. (German Coach.)
Verband der Pferdezuchter in den Holsteininchan Marschem. (Holstein Coach.)
Zuchtverband des Sudlichen Zuchtgebietes. (German Coach.)
Stud Book Mulassier, Société Centrale d'Agriculture des deux Sevres.
Stud Book of Jacks and Jennets of Spain.

Unrecognised Canadian Records.

Ontario Draft, Coach and Roadster Breeders' Association, St. Thomas, Ont.
Canadian Horse Register, Toronto, or of Grimsby, Ont.
The Dominion Draft Stud Book of Canada, Goderich, Ont.
The Canadian Draft Horse Stud Book, Toronto, Ont.
Société Generale des Eleveurs de la Province de Quebec. (French.)
Canadian Horse (old record), Quebec, Que.
Percheron Stud Book of Canada, Montreal, Que.

Unrecognised American Records.

National French Draft Horse Association, Fairfield, Iowa.

The Percheron Registry Company, Columbus, Ohio.

The American Breeders' and Importers' Percheron Registry Company, Plainfield, Ohio.

The American Percheron Registry Association, La Grange, Ill.

The United States Horse Register, Gibson City, Ill.

The American Draft Horse Register (formerly the National Union Percheron Norman Stud Book), Des Moines, Iowa.

Horse Breeders' Trotting Register, of Boston, Mass.

Belgian-American Draft Horse Registry, Lovington, Ill.

American Jack Stock Stud Book, Columbia, Tenn.

American Cleveland Bay Stud Book, West Orange, N.J., or Oconomowoc, Wis.

International Coach and Draft Horse Association, La Crosse, Wis.

The Standard Jack and Jennet Register of America, Kansas City, Mo.

The Parson's National Standard Pacing Horse Register Company, Cleveland, Ohio.

The American Horse Registry Association, Des Moines, Iowa.

The American Iceland Pony Club, Wheaton, Ill.

The International Consolidated Record Association, Penn Yan, N.J.

Morrison's International Roadster Register, Columbus, Ohio.

Hartman Stock Farm Registry Company, Columbus, Ohio.

The American Jack Register, Cedar Rapids, Iowa.

The National Hackney Stud Book, Crawfordsville, Indiana.

Some Facts Concerning the Percheron and French Draft Horses.

From time to time inquiries are received in the Live Stock Branch of the Saskatchewan Department of Agriculture asking why a French Draft stallion accompanied with a certificate of registration is not enrolled under The Horse Breeders' Act as a pure bred in the same way as is a Percheron registered stallion. This is a matter of serious importance to stallion owners of this province, and many people have evidently considered that the terms French Draft and Percheron were synonymous. No doubt in the past French Draft stallions have been sold as Percherons to unsuspecting farmers of this province, on account of the fact that the National French Draft Horse Association of Fairfield, Iowa, is in the habit of recording the draft horses of France as one breed and registering them as French Drafts, no matter whether they come to this continent with a certificate of registration from the Societe Hippique Percheronne de France or from the Societe de l'Agriculture de France.

For the information of those wishing to know the breed distinctions which actually exist between the Percheron and the French Draft horse, it may be said that in France there are found several separate and distinct breeds of heavy horses, the most important of which are:

1. *Percheron.*—This is a separate and distinct breed which has been bred pure for many generations in the district of La Perche. It is so well known that further description is unnecessary.

SOCIÉTÉ DES AGRICULTEURS DE FRANCE

(See page 30.)

2. *Boulonnais.*—A breed found in the district of Boulogne near the Belgian border, The individuals of this breed are very large and show a strong resemblance to the Belgian, except that they are coarser and very frequently have short, steep croups.

3. *Nivernais.*—The draft breed of the district of Niverne, smaller than either the Percheron or Boulonnais and usually black in colour. It has been a popular horse in France for light, rapid draft purposes.

4. *Breton.*—A breed similar to the Percheron except that it is lacking in quality. This breed is most numerous in western France.

Besides these there are a few other draft breeds in France of minor importance, notably the Ardennais and the Picardy.

Previous to 1888, the only breeds of draft horses in France, for which separate stud books were published were Percheron, Boulonnais and Nivernais. About 1888 the Agricultural Society of France, a private, not a government institution, published what was known as "The Stud Book of the French Draft Horse." This stud book was a reproduction of the stud books of the Percheron, Boulonnais and Nivernais breeds. It provided for the registration of all the other draft breeds of France and also cross breds of any of these draft breeds. Therefore, the "French Draft Stud Book," of France in its beginning accepted for registration any and all of the breeds of French draft horses and also the crosses of any of these breeds. This society has since followed practically the same policy.

In the United States there is a stud book known as "The National Registry of French Draft Horses," published by the National French Draft Horse Association. It accepts for registration horses registered in the French Draft Stud Book of France; horses whose sire and dam are recorded in the National Register of French Draft Horses, and mares having four top crosses. Previously to June 21, 1910, stallions having five top crosses were accepted. So a French Draft stallion may be; first, any one of the various breeds of French Draft horses (including the Percheron); second, a cross of any two of these breeds; third, a five top cross, which is in reality only a high grade.

On the other hand, only those stallions are recognised as a pure bred Percheron by Percheron registry associations or state registry boards, which have both sire and dam recorded as pure bred Percherons in a recognised and reputable registry association. In other words, a Percheron is one whose ancestors for many generations have been pure bred Percherons and where there has been no crossing or mixing of breeds.

There are many French Draft stallions which have been sold to Saskatchewan horsemen as pure bred Percherons, when, as a matter of fact, the great majority of them were only five top cross stallions. This does not mean that there are no good horses registered as French Draft stallions, for some of them are very excellent individuals, but it does mean that the horses in this stud book vary in type and that they do not conform as closely to a fixed type as the Percheron breed. Taken in the aggregate they will not, according to our recognised and accepted principles of breeding, prove to be as prepotent as the Percheron.

Comments on Registration Certificates not Recognised in Saskatchewan.

Horsemen of Saskatchewan are particularly warned against buying a stallion which has been represented to them as pure bred on account of the owner of the animal having a document purporting to be a certificate of registration from one of the undermentioned horse recording associations. For the information of horse breeders of this province, it may be stated, once and for all, that should any such stallion be offered for enrolment having a certificate from any of the unrecognised associations the Live Stock Branch of the Saskatchewan Department of Agriculture will issue only a scrub enrolment certificate for such stallion. It is true that, in exceptional cases, a few of these stallions have eventually been entered in stud books that are recognised by the authorities of The Canadian National Live Stock Records, Ottawa, Ontario. Such cases, however, are extremely rare and simply prove exceptions to the general rule.

Below will be found appended statements covering the registration methods in vogue by unrecognised horse recording associations. These statements have been compiled for the protection of the horse breeding industry of Saskatchewan, and have been submitted to the authorities at Ottawa, who have approved them as they now appear in this bulletin. In view of this horsemen are earnestly requested in their own interest not to buy as pure bred any stallion that has a registration certificate from any of the following associations:

The Percheron Registry Company.—The secretary of this company was Chas. G. Glen of Columbus, Ohio. The company is now out of existence having been absorbed by the Percheron Society of America. The Percheron Society of America will rewrite on application the certificates of all animals that are eligible for the Percheron Stud Book of America. The Percheron Registry Company was the only organisation outside of the Percheron Society of America that conducted a record admitting only imported horses or horses that traced in all their crosses to importation. Generally speaking the record was carefully conducted. (See page 34, Plate V.)

On account of the glaring irregularities which have crept into the records of rival American organisations, owing to the loose methods employed in the registration of American bred Percheron horses, these various competing Percheron stud book factions have been the cause of discrediting in Western Canada the American bred horse that cannot be recorded in the official stud book of its breed in the United States. In consequence of the suspicion that has fallen on the purity of the breeding of horses coming from the United States the Saskatchewan Department of Agriculture has made it imperative that every stallion used for public service shall be Canadian recorded before his owner is granted a certificate of pure bred enrolment.

The American Breeders' and Importers' Percheron Registry Company.—The secretary of this company is John A. Forney, of Plainfield, Ohio. This company's stud book contains many pure bred horses that have been imported from France, and accompanied with the certificates of registration issued by the Societe Hippique Percheronne de France. On the other hand there are very many entries in this company's stud book that indicate the presence of French Draft dams. In consequence of the strictures passed in recent years against the American bred Percheron horses it

PLATE V.

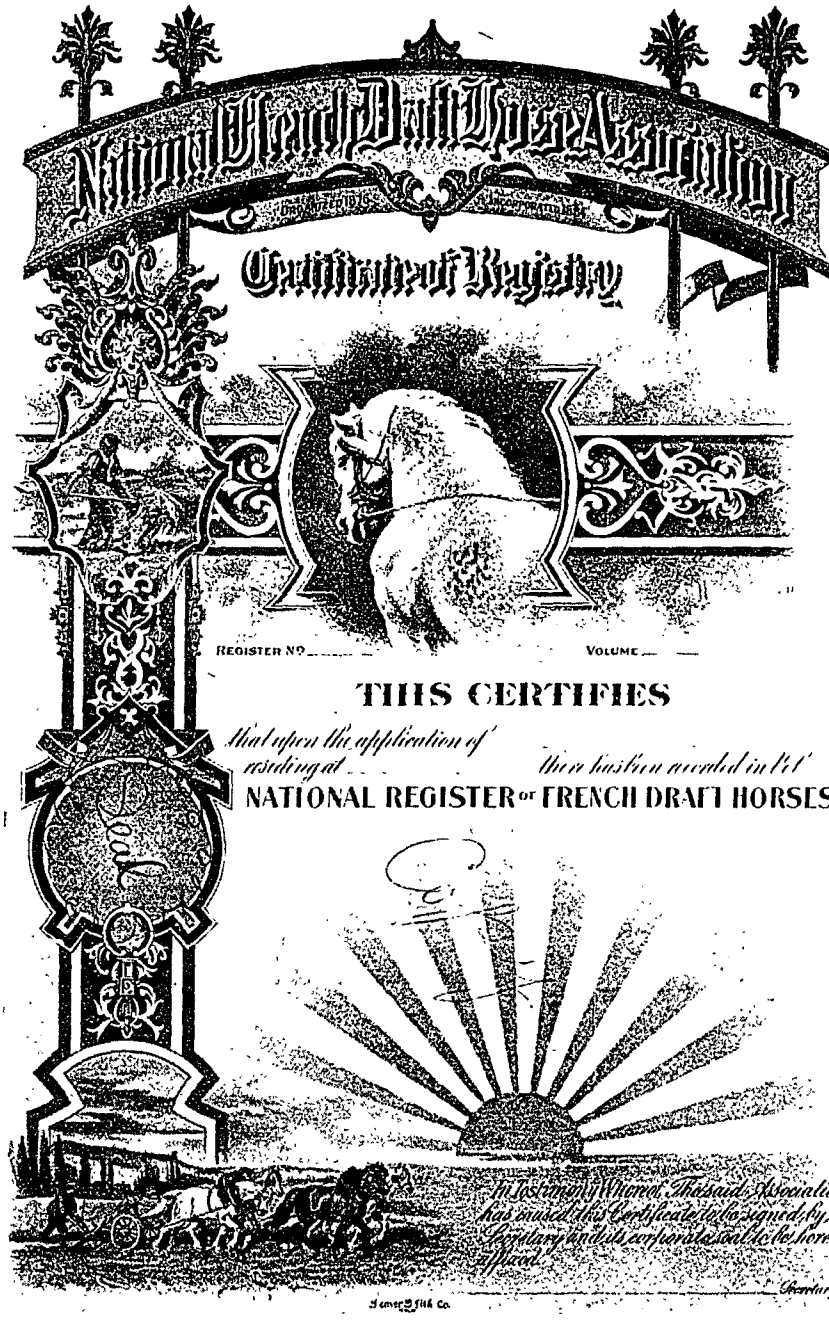
In Testimony Whereof, The said officers of the Percheron Stud book of Canada have caused this Certificate to be signed by its Hon. Secretary and its seal to be hereto affixed, and also on the certificate of

Montreal 23 Sept 1892 Eugène Tiremme The Hon. Secretary

NOTE—This Certificate should follow the Animal in the Counties of Chicoutimi and the Transfer Blanks on Back filled up and returned to the Secretary for Registering.

(See page 39.)

PLATE IX.



(See page 39.)

has been found necessary to insist that the recording of such stallions shall first be made in the stud book of the Percheron Society of America (Chicago) before they can be accepted for registration in the stud book of The Canadian Percheron Horse Breeders' Association at Ottawa. (See page 35, plate VI.)

The American Percheron Registry Association.—The secretary of this association is Stanley M. Heberling, of La Grange, Cook County, Illinois. A careful examination of certificates of registration issued by the above association shows that there are many horses of Percheron blood recorded but it is extremely difficult to verify the purity of their breeding. The registration requirements of the association are such as cater to the short bred and top crossed horses developing Percheron characteristics thus enabling his owner on payment of a nominal fee to obtain a document containing a tabulated pedigree, which is often more misleading than correct. (See page 36, plate VII.)

The Percheron Stud Book of Canada.—Certificates of registry issued by this stud book are not very well known outside of Quebec. Since the establishment at Ottawa of the Canadian National Live Stock Records, documents purporting to be certificates of registration issued by the Percheron Stud Book of Canada have no official recognition and are not often met with in western Canada.

The Percheron Stud Book of Canada was opened June 13, 1888, under authority of the Council of Agriculture of the Province of Quebec, M. R. Auzias-Turenne, of Montreal, was the secretary. As far as known the records were properly conducted as long as the organisation lasted. This stud book should not be confused with the present Canadian Percheron Stud Book, the record conducted by the Canadian National Records. (See page 37, plate VIII.)

The National French Draft Horse Association.—C. E. Stubbs of Fairfield, Iowa, is secretary of this association, which was organised in 1876 and incorporated under the state laws of Iowa in 1884. Certificates of registration issued by the National French Draft Horse Association are not recognised by the Record Committee of the Canadian National Live Stock Records nor do they recognise the Stud Book des Chevaux de Trait Français because they consider that animals recorded in it are not of one breed but descended from the following: the Nivernais, Boulonnais, Ardennais, Bretons and Percherons. (See page 38, plate IX.)

The committee looks upon the French Draft Records much in the same light as they regard the Select Stud Book of Scotland and the Goderich Book (Goderich, Ontario), both now out of existence. These books recorded horses of Clydesdale or Shire breeding or of mixed Clydesdale and Shire breeding.

In view of the National French Draft Horse Association regarding the draft horses of France as one breed and recording them as such, no matter if they come with a certificate from the Societe Hippique Percheronne de France or from the Societe de l'Agriculture de France, certificates issued by the above mentioned American association cannot be recognised in Saskatchewan.

There are pure bred Percheron horses recorded in the National French Draft Record of the United States which are eligible for registration in the Canadian Percheron Stud Book, provided they are first recorded in the stud book of the Percheron Society of America (Chicago).

If it were seen fit to open a record for French Draft horses in Canada it is highly improbable that the National French Draft Record could be recognised because they accept for registration Percheron horses as well as other French Draft breeds. There is already established in Canada a stud book for Percheron horses and the Act respecting the Incorporation of Live Stock Record Associations under which the Canadian Record Associations are incorporated does not allow the establishment of more than one record for a breed. (See page 25.)

The Canadian Horse Register.—The registrar of this record is Jas. A. Livingstone of Grimsby, Ontario. The Canadian Horse Register was established by the late E. King Dodds of Toronto, and maintained in connection with the *Canadian Sportsman,* which he edited, and in the files of which all the records are contained. We are not aware that the proprietor of this register ever claimed that it was a record for pure bred animals only. The avowed object was to keep a record of the grade horses with trotting blood in their veins, the progeny of which would be eventually qualified for standard registration with a minimum of trouble. The present difficulty is that many horse owners do not understand the nature of this record. Many uninformed men assume that registration in this register signifies that a horse is pure bred. Such is not necessarily the case. There appears to be no fixed standard for registration in this record. Furthermore, the countenancing of the mixing up of pacing bred and trotting bred stock in grading up on the maternal side under the present rules of the Canadian Standard Bred Society, postpones for all time to come the day when the progeny will be eligible for standard registration in the regular way. (See page 42, Plate X.)

As the only Canadian certificates recognised as indicating pure breeding are the records kept at Ottawa, Canadian Horse Register certificates, when received by the officers of the agricultural departments in the west, are invariably forwarded to Ottawa for registration. In not a single instance that has come under our observation has one of these horses been eligible for registration in either the American Trotting Register or the Canadian Standard Bred Stud Book. Of course, the proprietors of the Canadian Horse Register do not claim that registration in their book qualifies for registration in the American Trotting Register, but innocent purchasers all over the country are buying these horses, supposing them to be standard bred.

It may be noted here that the basis of the Canadian Standard Bred Stud Book kept at Ottawa is the American Trotting Register and its conditions of registration are similar, though the Canadian book will not admit performance as a qualification for registration. The difficulty in the way of doing so is that the Canadian National Records office has no machinery or means for ascertaining and verifying speed records, besides since February of 1907 a resolution has stood on the minutes of the American Trotting Register Association giving notice that in the near future no animals will be admitted excepting under Rule 1. March of 1914 is the time that this resolution is likely to come into effect. Rule 1 requires that all animals for which registration is asked must have recorded sire and dam. (See page 68.)

The fact should not be overlooked that only horses recorded as *Standard* in the American Trotting Register are eligible for the Canadian

Standard Bred Stud Book. Standard Certificates are *brown*, Non-standard Certificates are *green*.

The Parsons' National Standard Pacing Horse Register Company.—The registrar of this company is Thomas C. Parsons, of Cleveland, Ohio. The strongest claim made by this company for recording horses at this date appears to be on account of its age, and the company proclaims on its certificates that it is "The oldest pacing horse register in existence," and "Organised for the purpose of giving the standard to pacers." These statements may be so, but the pacing horses recorded in the company's register have never obtained recognition as pure breds either in the American Trotting Register or in the stud book of the Canadian Standard Bred Horse Society, Ottawa, Ontario. Performance rather than purity of breeding seems to be the prevailing standard governing the issue of the company's certificates. (See page 43, Plate XI.)

The Horse Breeders' Trotting Registry Company.—This company's address when in business used to be 161 High Street, Boston, Massachusetts. Inquiry has elicited the fact that the company is no longer registering horses. A few stallions accompanied with certificates of registration have found their way to Saskatchewan, and have been enrolled as scrubs for the reason that the company is neither recognised by the United States Department of Agriculture, Washington, D.C., nor by the authorities at Ottawa. The rules under which trotting horses in this registry were recorded did not lay any great stress on purity of breeding but contented themselves chiefly with track performance. (See page 44, Plate XII.)

The Cleveland Bay Society of America.—The secretary of this society is R. P. Stericker of Attica, N.Y. The principal reason why certificates of registration issued by this society are refused recognition in Saskatchewan is that there is no Canadian Cleveland Bay stud book. Owners of this breed of horses are required to submit certificates of registration from the English Cleveland Bay Society before their stallions can be enrolled as pure breds in Saskatchewan. Another point worthy of notice is that the American Cleveland Bay includes in its stud books entries of the Yorkshire Coach breed of horses, so that the record of the Cleveland Bay horse on this continent is not an official guarantee of purity of breeding as it is in England, the country of its origin. This must be obviously clear to the reader when he is informed that there are separate stud books in England for the Yorkshire Coach and the Cleveland Bay horse. In view of this it is not deemed advisable to enrol the American Cleveland Bay stallion as pure bred in Saskatchewan, unless his owner possess for him an English certificate of registration. (See page 45, Plate XIII.)

The International Coach and Draft Horse Association.—The secretary of this association is J. P. Reeve, of La Crosse, Wisconsin. This association appears to conduct its stud book on lines similar to those laid down by the American Horse Registry Association where individuality and blood lines play a more important part than purity of breeding. Certificates of registration issued by this association have never been at any time recognised by the federal authorities of the United States. The mixed recording of coach and draft horses by this association renders unnecessary any further investigation of its records either in Saskatchewan or at Ottawa. (See page 46, Plate XIV.)

PLATE X.

Canadian Horse Register

Office of CANADIAN SPORTSMAN
Established 1870

Grimsby, Ontario, JULY 31 1913

This is to Certify That James E. Smith, Beamsville, Ontario.

Has entered in the Canadian Horse Register the following animal:

JENNIE BINGEN :- Bay mare; star in forehead; foaled April 15, 1910.

Sire :- Fritz Bingen, by Bingen, by May King, by Electioneer, by Hambletonian 10

First Dam :- Jennie B., by Almont Wilkes, by Wilkie Collins, by George Wilkes.

Second Dam :- Chestnut Belle, by General Stanton.

Third Dam :- Bess, by Black Bear.

Bred by John A. Brown, Winona, Ontario.,

Owned and Registered by James E. Smith, Beamsville, Ontario.

The Standard Jack & Jennet Register of America

(INCORPORATED)

CERTIFICATE NO. 5452.

This is to Certify, that WAVERLY KING

has been duly registered and the pedigree can be traced in the following form:

WAVERLY KING 5452. Male. Color, black; white points. Foaled September 23, 1911. Sire, Billy Bryan 4365, by Billy Woods; Sire's dam, Miss Bryan 4366, by Sir Henry, out of Isabella. Dam, Edna 5322, by Knight Malta 4732, by Jim, out of Pet. 2nd dam, Kate 4738, by Andy. 3d dam, Bess. Bred by J. H. Hill, Westphalia, Kansas. Owned by Wynn Barr, Waverly, Kansas.

In Witness Whereof, *the said Corporation has caused this Certificate to be signed by its duly authorized officers and to be sealed with the Seal of the Corporation at Kansas City, Missouri, this* Twenty-fifth day of March, A. D. 1913.

SECRETARY PRESIDENT

(See page 55.)

The American Horse Registry Association.—This company has been in business at Des Moines, Iowa, since 1888, and its energetic secretary is Mr. N. J. Harris. According to the literature sent out by him it appears that the Association records four classes of horses, namely, Roadster, Draft, Coach and Carriage. The principal qualification for registry is that each horse is subjected to a "rigid" score card test, which may be made out by the owner, who is requested not to mark his horse too high. The horse is eligible for recording provided that the animal does not score below eighty points of the standard adopted by the American Registry Association. The fact that the owner of the horse is permitted to do his own scoring appears to be a sample of simplicity entirely out of keeping with the frailty of human nature. The number of rejections under this form of score card test may be safely assumed to amount to almost nothing. In addition to the "rigid" score card test, and, presumably for good measure, the owner is required to have his horse inspected by a veterinarian. It may be plainly seen that the Association is apparently stronger on lines of individuality than of pure breeding, consequently all documents purporting to be certificates of registration issued by The American Horse Registry Association cannot be accepted in Saskatchewan. (See page 47, Plate XV.)

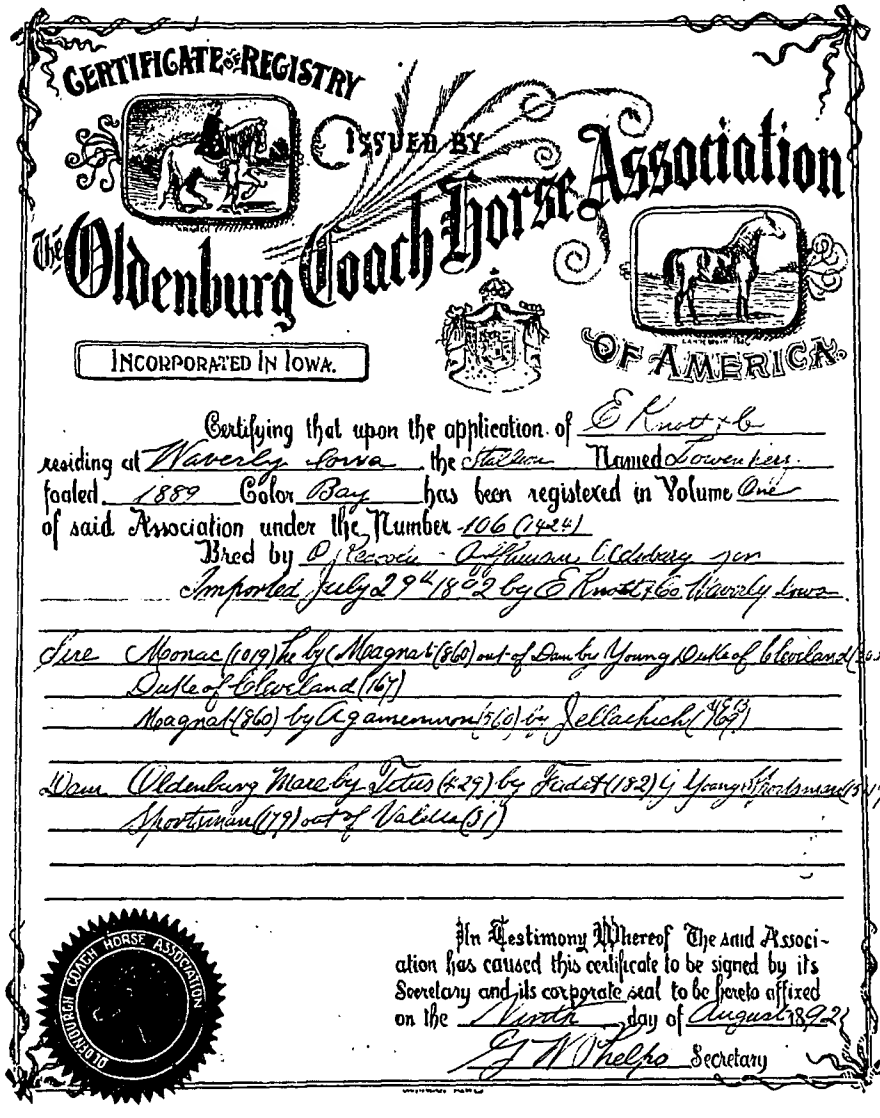
The Dominion Draft Horse Breeders' Society.—This society was established at Goderich, Ontario, and incorporated under the statutes of that province on the twelfth of April, 1886. Before the society went out of business some years ago, there had been published four volumes known as "A" "B" "C" and "D" of the Dominion Draft Horse Stud Book, consisting of registration of Clydesdales and Shires and crosses of the two breeds. Many horses recorded in these volumes have since been incorporated in the Canadian Clydesdale and Shire Stud Books at Ottawa. There are still a few of the certificates of registration of the Goderich stud book in existence in the West, particularly those issued from Volume D, which horsemen are advised to leave alone. (See page 48, Plate XVI.)

The Canadian Draft Horse Stud Book.—Established at Toronto 1882 by the Agriculture and Arts Association of Ontario. Henry Wade, secretary, published volume I, consisting of pedigrees of Clydesdales and Shire horses and crosses of the two breeds, also horses imported from England and Scotland not recorded in the English Shire Stud Book or the Clydesdale Stud Book of Scotland.

The German, Hanoverian and Oldenburg Coach Horse Association of America.—The secretary of this association is J. Crouch, of Lafayette, Indiana. The only objection to recognising certificates of registration from this record is that in the absence of a Canadian stud book for the above mentioned breed it has been deemed prudent to accept only such horses as pure breds as are accompanied with old country German certificates of registration. This is the procedure laid down by the authorities of the Canadian National Live Stock Records, Ottawa, Ontario, which is a course that has not been deemed advisable to depart from, at least for the present. (See page 49, Plate XVII.)

The Ontario Draft, Coach and Roadster Association.—The secretary of this association is W. McClellan of St. Thomas, Ontario. This association was incorporated on the eighth of April, 1889, and the record was known as The Ontario Stud Book. This record contained indiscrimin-

PLATE XX.



CERTIFICATE OF REGISTRY

ISSUED BY

The Oldenburg Coach Horse Association

OF AMERICA.

INCORPORATED IN IOWA.

Certifying that upon the application of E Knott & Co residing at Waverly Iowa the Stallion Named Louenhein foaled 1889 Color Bay has been registered in Volume One of said Association under the Number 106 (1424)

Bred by O Petersen Aufhausen Oldenburg ger

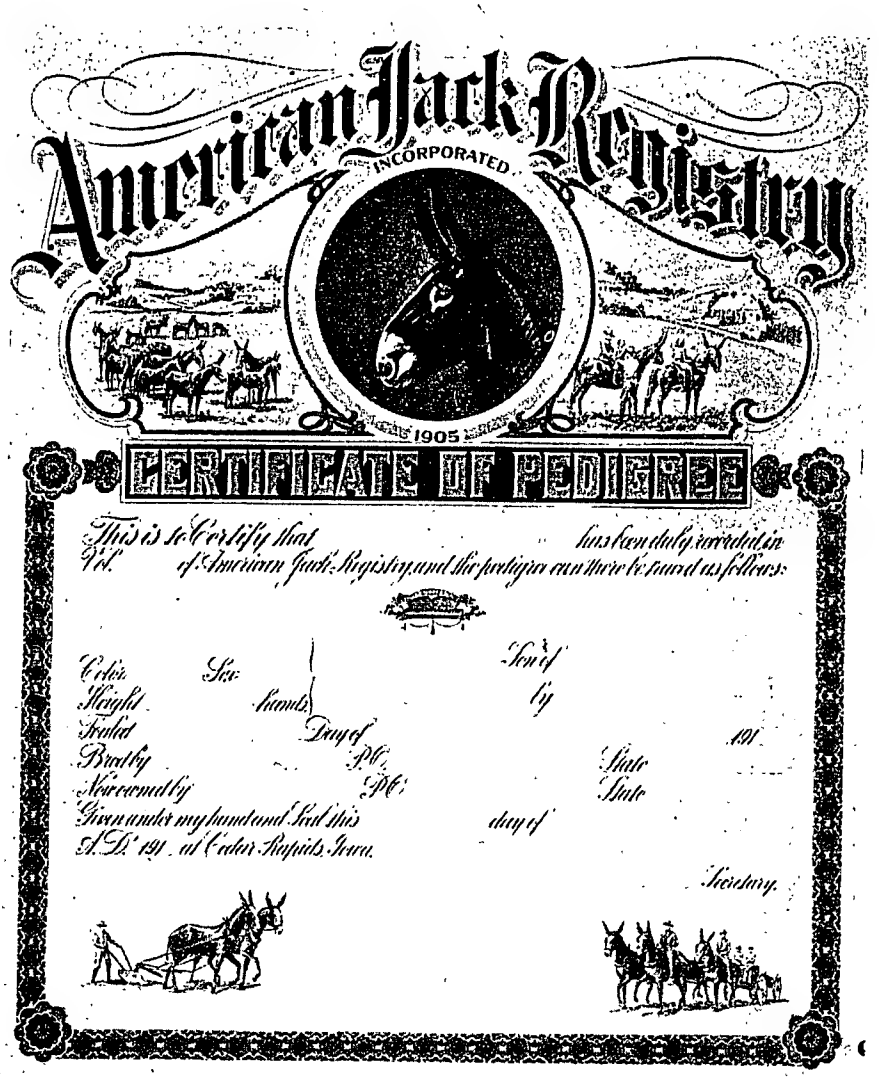
G W Phelps Secretary

OLDENBURG COACH HORSE ASSOCIATION

THE OLDENBURG COACH HORSE ASSOCIATION.

Certificates of registration issued by this Association are not recognised in Saskatchewan on account of the same objection as is taken to those issued by The German, Hanoverian and Oldenburg Coach Horse Association of America. See page 52.

PLATE XXI.



THE AMERICAN JACK REGISTRY.

The Secretary of this registry is W. L. DeClow of Cedar Rapids, Iowa. Registration certificates issued by this registry company are neither recognised in Canada nor in many of the States where the stallion enrolment law is up-to-date and efficiently administered. For further information concerning the registration of jacks and jennets, see page 55 with reference to the remarks made on certificates issued by The Standard Jack and Jennet Registry of America.

ately draft, coach and road horses, as its name implies, and its value as a breed record is practically useless. Perhaps some of the horses recorded in this stud book are eligible for Canadian National Records. On the other hand, a very large number of these horses can never be accepted for registration by the authorities of the Canadian National Live Stock Records at Ottawa for the reason above mentioned. There are a number of registration certificates issued by the St. Thomas association in existence in Saskatchewan and horsemen would do well to avoid having anything to do with them as they are of no practical use and the horses they represent are either dead or of no value in raising the standard of the horse breeding industry of this province. A certificate of scrub enrolment only is issued for horses recorded in the St. Thomas stud book. (See page 50, Plate XVIII.)

The Standard Jack and Jennet Registry of America.—This registry is incorporated, and the present secretary is Wm. W. Morton, 920 Scarrit Building, Kansas City, Missouri; the name of its former secretary is Frank B. Graham. There is no apparent fault to find with this corporation, but the only certificates of registration of jacks and jennets accepted as genuine are those issued from the foreign books of record, namely: Societe Centrale d'Agriculture des deux Sevres and the stud book of Jacks and Jennets of Spain. There is no Dominion stud books for jacks and jennets, consequently only certificates of registration issued by the authorities of these foreign stud books are officially recognised by the Canadian National Live Stock Records, Ottawa, Ontario. (See page 51, Plate XIX.)

Societe Generale des Eleveurs de la Province de Quebec, Section de Chevaux Canadiens.—This is the record for French Canadian horses that was in existence from 1899 to 1906, conducted in the City of Quebec. After nationalisation the records went to Ottawa and horses before being accepted for registration in the Canadian National Book that was opened had to undergo an inspection. Many horses in the old book were not accepted for the new one. Only French Canadian horses with Canadian National Certificates are accepted for enrolment as pure bred.

The Nonstandard Bred Stallion.

There are only a few nonstandard bred stallions in Saskatchewan that have been offered for enrolment within the last two or three years, and it is quite probable that their number will increase as time goes on. In view of this and knowing that the status of the nonstandard bred stallion is not thoroughly understood in western Canada, it is considered that an explanation of the reasons why the nonstandard bred stallion is classified and enrolled as a grade stallion is a matter the treatment of which is not out of place in th's bulletin.

A great many people seem to have the idea that the on y difference between a standard stallion and a nonstandard stallion is simply that the nonstandard stallion does not possess a certain required speed mark. For the benefit of such, a few words of explanation of the nonstandard horse and the Nonstandard Department of the American Trotting Register are given at this time.

During the formative period of the American Trotter, as a breed, there were many horses which, because of their historic interest and their approved merit, in a speed sense, required that a place be provided for keep-

ing a record of them, hence the establishment of the Nonstandard Department of the American Trotting Register, which makes its first appearance in Vol. IV.

The men who were fostering, encouraging and protecting the interests of the American Trotter were anxious that everyone interested in these matters should know exactly the purpose and intent of the Nonstandard Department of the Trotting Register. The status of the nonstandard horse is given in Vol. V as follows:

"When the standard was adopted the necessity for a nonstandard department was generally conceded. The only condition necessary for admission has been that the animal should be "well related to the standard trotting blood," which in its application has been indefinite and not wholly satisfactory. In the next volume definite and fixed conditions will be observed from the start, and these conditions will be a constant reminder of the advantage of getting within the standard in all breeding operations."

These men further emphasised the position of the nonstandard horse as a breeding animal in Vol. VI as follows: "A notable feature of the present volume is the falling off in the animals in the nonstandard department. This, I take it, is an unmistakable indication that popular intelligence is now demanding standard bred animals for breeding purposes. It is only a question of a little time when there will be no nonstandard department."

The nonstandard department has not been discontinued, still the above quotations show that the American Trotting Register Association is anxious to have the true standing of the nonstandard horse definitely understood.

There are only two rules under which a trotting stallion can be recorded as standard and recognised as a "pure bred" in the general sense of the term. "(1) The progeny of a registered standard trotting horse and a registered standard trotting mare. (2) A stallion sired by a registered standard trotting horse, provided his dam and grand dam were sired by a registered standard trotting horse, and he himself has a trotting record of 2.30 and is the sire of three trotters with records of 2.30 from different mares."

The requirements for a pacing stallion are practically the same except that in each case a mark of 2.25 is required instead of 2.30.

It is very plain that no stallion can be recorded on performance alone. In the case of stallions being recorded under Rule 2, besides being a standard performer, he must be well bred and must also show that he is able to reproduce his qualities.

The question of difference between a standard and a nonstandard stallion is not a question of performance but it is a question of breeding. So in either purchasing or breeding to a stallion registered as nonstandard one should bear in mind the fact that a nonstandard horse is only a grade.

HORSES TRANSFERRED FROM UNITED STATES STUD BOOKS TO CANADIAN NATIONAL RECORDS

IMPORT CERTIFICATES NECESSARY FOR REFUND OF DUTY.

Purchasers of pure bred horses in the United States sometimes neglect to see that they receive from the sellers the proper certificates of registration. If an animal is already on record in the proper American stud book, a certificate of registration to this effect should be forthcoming, together with a transfer certificate issued by the stud book authorities, showing that the Canadian purchaser's ownership is on record. American horse dealers frequently supply only applications for transfer, which are of no use to the authorities of the Canadian National Records, Ottawa, Ontario.

If certificates are forwarded to the office of the Canadian National Records, two weeks in advance of the time of shipment of horses, import certificates may be forwarded to the purchaser's home address or to the collector of customs where it is intended to pass the customs, by the time of the arrival of the shipment.

Animals may be declared at the port of entry into Canada, or may be shipped in bond to any desired point. Definite information as to the intention of the importer, should be sent at the time import certificates are being forwarded.

If strict attention is paid to the foregoing instructions, no difficulty will arise. On the other hand if import certificates are not in the hands of importers when free customs entry is applied for, then duty is always collected.

In the event of duty being paid, the same may be recovered within one year, upon the written application of the importer to the customs house where paid. The application must be accompanied by the import certificate, secured from the Canadian National Record Office, Ottawa. As this application and import certificate have to be forwarded by the local customs office to the Customs Department at Ottawa, some delay is occasioned. Refunds are made by the Customs Department at Ottawa. The Canadian National Records have nothing to do with the matter, other than to supply the import certificates.

Importers should fully realise that applications for refunds and the providing of the necessary import certificates are entirely in their hands and must be looked after by themselves. They must look to neither the customs officers nor officers of the Canadian National Records to do this preliminary work. If no application is made, no refund is forthcoming. Importers should bear in mind that import certificates, and not certificates of registration, are what the customs officials require.

Canadian buyers of pure bred horses should secure import certificates in the first instance, and then it will not be necessary to pay duty before clearing the customs, or afterwards to have all the trouble of recovering duties paid.

The United States Associations with which animals must be recorded are:

For Percheron Horses—Percheron Society of America, Chicago, Ill.

For Clydesdale Horses—American Clydesdale Association, Chicago, Ill.

For Hackney Horses—American Hackney Horse Society, New York, N.Y.

For Belgian Draft Horses—American Register of Belgian Draft Horses, Wabash, Ind.

For Shire Horses—American Shire Horse Stud Book, Wenona, Ill.

For Thoroughbred Horses—American Thoroughbred Stud Book, New York, N.Y.

For Shetland Ponies—American Shetland Pony Stud Book, Lafayette, Ind.

For Welsh Ponies—American Welsh Pony and Cob Stud Book.

For Suffolk Punch Horses—American Suffolk Horse Stud Book, Janesville, Wis.

For Morgan Horses—American Morgan Register, Middlebury, Vt.

For Saddle Horses—American Saddle Horse Register, Louisville, Ky.

For French Coach Horses—American French Coach Horse Register, or the French Coach Horse Stud Book of America, Chicago, Ill.

For Standard Bred Horses—American Trotting Register, Chicago, Ill.

From a perusal of the foregoing statements it will be clearly seen that the Canadian buyer or importer must first of all obtain an official transfer from the secretary of the American stud book in which his stallion is registered, certifying to the fact that all transfers of ownership have been procured and that the same have been recorded in the stud book of the stallion's breed before the animal can be entered in the Canadian stud book at Ottawa. A nominal fee of 50 cents is charged for this service.

The pedigree, with said transfer, should be forwarded to the Canadian National Live Stock Records, the officials of which will issue an import certificate which entitles the holder to import the animal mentioned therein free of duty.

Registration Symbols Explained.

The record number of a Canadian bred horse immediately follows the name. If the animal is recorded in stud book of other countries, numbers in these books follow the Canadian number, in this order: Canadian, American, Foreign. A horse imported from an overseas country has the abbreviation (imp.) in parenthesis, following the name. Numbers for horses recorded in American books of record appear without any symbols.

The following will illustrate: MACQUEEN (imp.) [462] 3513 (5200) (imp.) means from Great Britain in this case. [462] Canadian number. 3513 American number. (5200) Scottish number.

The following are the symbols covering all recorded horses:

( ) indicate horses are recorded in an overseas record with the exception of Shetland ponies from the Shetland Island. In this case — — are used.

[ ] enclose Canadian numbers for Clydesdales, Percherons, Shires, Suffolks, French Coach Horses and Ponies.

— — enclose Canadian numbers for Hackney Horses, Thoroughbreds, Standard Bred Horses, French Canadian Horses and Belgian Draft Horses.

CANADIAN REGISTRATION OF HORSES.

Canadian Registration and Import Certificate.

In the case of horses from European countries the importer should, if possible, forward his foreign certificates along with application and fees, on a mail boat sailing before the stock is shipped. Import certificates and Canadian certificates of registration can then be sent to meet the horses on landing. The Canadian certificate is necessary in order to get the reduced freight rates. In the case of late purchasers, importers landing horses at Montreal or at St. John, or other Atlantic ports, may mail their applications, foreign certificates and fees on landing and then ship in bond subject to quarantine requirements, to the nearest customs house to destination. It must in all cases be definitely stated where import certificates are to be forwarded.

In addition to the foreign certificate of registration, an application made out on the regular form, supplied by the National Record Office, is required. The foreign certificate of registration must show the ownership of the Canadian importer. Fees for registration are indicated elsewhere in this report.

For animals imported in dam, certificates of service must be procured from the breeder, signed by the owner of the sire at the time of service.

The National Record Office gives special service in issuing import certificates. Certificates will be mailed to the importer in care of the customs officer at the port of entry, or to any other address desired.

Residents of Canada wishing to import pure bred animals from the United States, in order to avoid trouble or delay at the port of entry, should secure registration of the animals in the Canadian record and obtain import certificates before the animals are shipped.

Blank application forms and other information, if desired, will be furnished on application to the Accountant, National Live Stock Records, Ottawa, Canada.

Eligibility of Horses for Canadian Records.

It is important that Canadian importers, before purchasing animals of a breed for which there is a Canadian record, ascertain if they are recorded in the proper foreign record, and if so, they are eligible for record in Canada. Canadian registration of imported animals will not be made unless proper foreign certificate is presented, and ownership of animals properly authenticated.

Canadian records, with the exception of that for French Canadian horses, which is purely Canadian, are for the most part based on the records of the countries of the origin of the breeds, but as the Canadian standard of registration is higher in some cases than the standard in the country of origin, or that of other countries, animals, may or may not be eligible for entry in the Canadian Records. The fees for recording

animals in the Canadian records bred in other countries are indicated on pages 64–70. (These fees do not in all cases apply to the recording of Canadian bred animals.) In addition to the registration fee, fifty cents is charged for each import certificate for horses.

The Importation Regulations Explained.

To obtain free customs entry of any horse of a breed for which there is a Canadian record, the importer must forward to the Accountant, Canadian National Records, Ottawa, an application made out on a form supplied by the National Record Office, accompanied with the foreign certificates of registration, and the necessary fees for registration as specified elsewhere in this report, and in addition for import certificate a fee of fifty cents for each horse. The foreign certificate of registration must in all cases show the Canadian importer's ownership.

The import certificate will be forwarded to pass customs at the point of entry into Canada or elsewhere as the importer may direct. In no case should the importer present any certificate of registration to the Custom authorities other than the import certificate.

Importers should be careful to observe the veterinary requirements in connection with the importation of animals. Further information may be procured from the Veterinary Director General, Ottawa, Canada.

IMPORT CERTIFICATES FOR ANIMALS OF A BREED FOR WHICH THERE IS NO CANADIAN RECORD.

In order to secure free customs entry for an animal of a breed for which there is no Canadian record, but which is recorded in a foreign record recognised as reliable, the importer must forward to the Accountant, Canadian National Records, the foreign certificate of registration accompanied by the fee of $2.00 for horses. The import certificate will be forwarded to pass the customs at the point of entry into Canada or elsewhere as the importer may direct.

In no case should the importer present any certificate of registration to the Custom authorities other than the import certificate.

Importers should be careful to observe the veterinary requirements in connection with the importation of animals. Further information may be procured from the Veterinary Director General, Ottawa, Canada.

Duplicate Canadian Registration Certificate.

If the original Canadian certificate of registration has been lost or destroyed a duplicate certificate may be obtained by the present owner of a pure bred stallion or mare by taking an affidavit in the form appended below. The affidavit must be accompanied with the fee of fifty cents or one dollar according to the animal's breed and be sent to Mr. Jno. W. Brant, Accountant, National Live Stock Records, Department of Agriculture, Ottawa. The Saskatchewan Live Stock Branch will also undertake the work of getting a duplicate registration certificate for the owner if application is made first to the Provincial Department of Agriculture.

National Live Stock Records.

OTTAWA, CANADA.

Canada:
Province of ,
To wit:

In the matter of "The Live Stock Pedigree Act" and of (*name and registration number of animal*)

I (*name in full, no initials*) of the of in the county of and province of , (*occupation*) do solemnly declare that:

1. I am the owner of the animal (*name of animal*) registered in the (*name of book in which recorded*) as number (*record number*).

2. A pedigree certificate was issued for said animal by the proper officer in that behalf in accordance with the above particulars.

(If never in the possession of the person making the declaration, strike out paragraph 3 and give full particulars. Have person before whom declaration is made initial any erasures or interlineations in the margin.)

3. Said certificate was in my possession until the day of 19 , or thereabouts but has been totally destroyed or lost as follows: (*Give full particulars of how destroyed or lost*).

And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath and by virtue of The Canada Evidence Act.

Declared before me at the of this day of 19 .
Notary Public

Canadian Stud Book Rules of Entry.

Clydesdales.—Stallions and mares recorded and bearing registration numbers in the Clydesdale Stud Book of Great Britain and Ireland, whose sires and dams, together with their sires and dams are also recorded and bear registration numbers in said stud book, provided that the breeding of such sires and dams, if already recorded in the Clydesdale Stud Book of Canada as ancestors, complies with this rule. When recording animals imported in dam, certificate of service must be furnished from the breeder signed by the owner of the sire at the time of service.

An imported animal is one which has been imported from Great Britain and Ireland. Applications for registration of animals imported from Great Britain after April 1, 1909, must be accompanied by a tabulated certificate, in addition to the regular export certificate issued by the Clydesdale Society of Great Britain and Ireland, showing ancestors numbered as stated above.

Canadian Bred Animals.—(*a*) Stallions and mares by sires and out of dams recorded in the Clydesdale Stud Book of Canada.

(*b*) Clydesdale stallions having five top crosses by sires recorded in the Clydesdale Stud Book of Canada and Clydesdale mares having four top crosses by sires recorded in the Clydesdale Stud Book of Canada. In all cases of Canadian bred animals the dam must be recorded before a stallion is eligible, or in case of a mare with five top crosses her dam must be recorded before she is eligible. Applications for the registration of four cross pedigrees shall be certified and sworn to or affirmed by the breeder before an officer authorised to administer oaths.

The fees for registration of pedigrees, transfers, certificates, etc., are as follows:

For Canadian bred horses: to members, animals if recorded before December 31 of the year of foaling $1.00; to members, animals if recorded after December 31 of the year of foaling, $2.00; to nonmembers, animals if recorded before December 31 of the year of foaling, $2.00; to nonmembers, animals if recorded after December 31 of the year of foaling, $4.00; transfers, 50c; duplicate certificates, 50c; new certificates replacing old ones of which shipping vouchers have been used, 50c; tabulated pedigrees, $2.00. For imported horses: to members, males, $3.00; to members, females, $2.00; to nonmembers, males, $4.00; to nonmembers, females, $3.00. Annual membership fee, payable January 1, $2.00.

Hackney.—Stallions full registered and all mares, if by full registered sires recorded in the American Hackney Stud Book, and animals bred in Great Britain or Ireland and recorded in the English Hackney Stud Book, as follows:

(*a*) Stallions with three top crosses of *full registered sires and with two registered dams.

(*b*) Mares with two top crosses of *full registered sires and with one registered dam.

(*c*) Mares with one top cross of *full registered sires with a registered dam.

The fee for membership is $3.00 for calendar year. The fee for registration of pedigrees is as follows: To members: each animal $2.00, transfer of ownership $1.00, duplicate certificates $1.00, new certificates $1.00, recording ancestors $1.00. To nonmembers: Each animal $4.00, transfer of ownership $2.00, duplicate certificates $2.00, new certificates $1.00, recording ancestors $1.00. An additional fee of $1.00 is charged for each ancestor recorded to complete pedigrees of animals recorded in the American Stud Book. Annual membership $3.00.

---

* Full registered sires are those (*a*) that are recorded as such in any of the first sixteen volumes of the English Hackney Stud Book, or (*b*) those recorded since volume 16, providing they were eligible to full registry under the rules in force for entries in volume 16 of the English Hackney Stud Book.

Shire.—The pedigrees of the following animals shall be admitted to registry:

(*a*) Animals recorded in the English Shire Horse Stud Book.

(*b*) Animals recorded in the American Shire Horse Stud Book, in which case all ancestors back to and including the imported cross must be recorded.

(*c*) Animals the sires and dams of which are recorded in the Canadian Shire Horse Stud Book.

The fee for membership is $2.00 for calendar year. The fees for registration of pedigrees are as follows: To members, animals under three years of age $1.00; to members, animals over three years of age $2.00; to nonmembers, animals under three years of age $2.00; to nonmembers, animals over three years of age $4.00; transfer of ownership 50c, duplicate certificate 50c, new certificate 50c, tabulated pedigree $2.00.

Percheron.—All horses imported from France shall be eligible to registry in the Canadian Percheron Stud Book if accompanied with a certificate of registration certified to under seal of the Secretary of the Societe Hippique Percheronne de France, together with the name and address of the breeder, name and address of the importer, date of importation, name of vessel and port of entry.

Animals bred in Canada or the United States:—(*a*) Percheron stallion or mare, the sire and dam of which are recorded in the Canadian Percheron Stud Book.

(*b*) Percheron stallion or mare, recorded in the American Percheron Stud Book, in which case all ancestors back to and including the imported ones shall also be recorded in the Canadian Percheron Stud Book. No American bred Percheron will be accepted for registration unless a certificate of registration has been issued by the Percheron Society of America, and signed by the Secretary, Wayne Dinsmore, Union Stock Yards, Chicago, Illinois, and submitted for approval at the time application is made. Fees to members: stallions, $3.00; mares, $1.00; to nonmembers: stallions, $6.00; mares $4.00. Transfers 50c, recording each ancestor 50c, duplicate certificates 50c, new certificate replacing certificates of which shipping vouchers have been used 50c; life membership $20.00, annual membership $2.00.

Belgian Draft.—The following animals may be admitted to registry:

1. *Imported Animals.*—Pedigrees of horses imported from Belgium shall be eligible to registry in the Canadian Belgian Draft Horse Stud Book, if accompanied with a certificate of registry, certified to under seal of the Secretary of either the "Societe le Cheval de Traite Belges," Brussels, Belgium; or the American National Association of Importers and Breeders of Belgian Draft Horses, together with the name and address of breeder, name and address of importer, date of importation, name of vessel and port of entry. In the case of horses imported previous to January 1, 1888, a certificate from the Secretary of the American Association of importers and breeders of Belgian Draft Horses only shall be required.

2. *Animals Bred in Canada or United States.*—(*a*) Belgian Draft stallion or mare, the sire and dam of which are recorded in the Canadian Belgian Draft Horse Breeders' Record.

(*b*) Belgian Draft stallion or mare, the sire and dam of which are recorded in the American National Register of Belgian Draft Horses, in which case all ancestors back to and including the imported one, shall also be recorded in the Record of the Canadian Belgian Draft Horse Breeders' Association.

Fees: Stallions, to members $3.00; stallions, to nonmembers, $4.00; mares, to members $1.00; mares, to nonmembers $2.00; transfers 50c, duplicate certificate 50c, life membership $20.00, annual membership $2.00.

Suffolk.—The following animals may be admitted to registry:

(*a*) Stallions or mares recorded in the English Suffolk Stud Book.

(*b*) Stallions or mares recorded in the American Suffolk Horse Stud Book, in which case all ancestors back to and including ancestors imported from Great Britain must also be recorded.

(*c*) Animals the sires and dams of which are recorded in the Canadian Suffolk Horse Stud Book.

The fee for membership shall be $2.00 for calendar year.

The fees for registration of pedigrees, transfers, certificates, etc., shall be as follows: For Canadian bred horses, to members, animals if recorded before December 31 of the year of foaling $1.00; to members, animals if recorded after December 31 of the year of foaling $2.00; to nonmembers, animals if recorded before December 31 of the year of foaling $2.00; to nonmembers, animals if recorded after December 31 of the year of foaling $4.00; transfers 50c, duplicate certificates 50c, new certificates replacing old ones of which shipping vouchers have been used 50c, tabulated pedigrees $2.00. For imported horses: To members, males $3.00; to members, females, $2.00; to nonmembers, males, $4.00; to nonmembers, females, $3.00.

French Coach.—The following may be admitted to registry:

(*a*) Animals imported from France and recorded in the Stud Book Français Registre des Chevaux de Demi-Sang.

(*b*) Animals recqrded in the French Coach Horse Stud Book of America or in the French Coach Horse Register if upon investigation the pedigree is found to be correct and proper.

(*c*) Animals, the sires and dams of which are recorded in the Canadian French Coach Horse Stud Book.

(*d*) The ancestry of all animals previously recorded in the French Coach Horse Stud Book of America or in the French Coach Horse Register must be recorded back to and including ancestors imported from France.

(*e*) Applications for recording pedigrees of imported animals must state date of importation, name of vessel and port of entry.

The fees for registration of pedigrees, transfers, certificates, etc., shall be as follows:

For animals recorded before September 1 of the year following the year of foaling: members, stallions $3.00, mares $1.00; nonmembers, stallions $5.00, mares $2.00; if recorded after September of the year following year of foaling: members, stallions $4.00, mares $2.00; nonmembers, stallions $6.00, mares $4.00; for animals imported from France, if recorded within a year of the date of importation: members, stallions $3.00, mares

$1.00; nonmembers, stallions $5.00; mares $2.00; if recorded more than a year after date of importation: members, stallions $4.00; mares $2.00, nonmembers, stallions $6.00, mares $4.00; transfers 50c; duplicate certificates 50c; new certificate replacing certificates of which shipping vouchers have been used 50c; life membership $20.00; annual membership $2.00.

French Canadian.—The following may be admitted to registry: animals the sires and dams of which are recorded in the Canadian National Records for French Canadian horses.

Fees for registration: to members $1.00; to nonmembers $3.00; transfers: to members 25c; to nonmembers 50c; copy of certificate of registration: to members 25c; to nonmembers 50c; annual membership fee $1.00.

Thoroughbred.—The pedigrees of the following animals shall be admitted to registration in the stud book:

(*a*) Animals recorded in the English General Stud Book; the American Stud Book; the Australian Stud Book; the French Stud Book, or in a stud book for registration of Thoroughbreds in any other country wherein certificates of such registration are issued and are received and accredited as authentic and sufficient for purposes of record or registration in any of the above named stud books.

(*b*) Animals foaled in Canada, whose sires and dams are registered in any of the above named stud books, or in the books of the Canadian Thoroughbred Horse Society.

The fees for registration, including certificate are: for registration, to members $1.00; for registration, to nonmembers $2.00; for transfers $1.00; life membership $50.00; annual membership $2.00.

Standard Bred.—All trotting and pacing horses already recorded in the American Trotting Register (Chicago); also any animal whose sire and dam are recorded in the Canadian Standard Bred Stud Book.

Membership fees: life membership $25.00; annual membership $2.00; registration fees: members, each registration including certificate $1.50; transfer of ownership 50c; duplicate certificates 50c; new certificates in exchange for old ones 50c; registration of Canadian bred horses recorded in the American Trotting Register prior to May 1, 1910, $1.00; nonmembers: each registration, including certificate $3.00; transfer of ownership $1.00; duplicate certificates $1.00; new certificates in exchange for old ones $1.00; registration of Canadian bred horses recorded in the American Trotting Register prior to May 1, 1910, $2.00.

PONIES.

1.—Animals will be admitted to registry as follows:

Shetland Ponies.—(Standard 44 inches.) (*a*) Animals imported from Great Britain and recorded in the Shetland Stud Book of Scotland.

(*b*) Animals, the sires and dams of which are recorded in the Shetland Section of the Canadian Pony Stud Book.

(*c*) Animals recorded in the American Shetland Pony Club Stud Book provided they are descended from ancestors imported from Great Britain and recorded in the Shetland Stud Book of Scotland.

(*d*) Animals imported from Great Britain prior to January 1, 1909, not recorded in the Shetland Stud Book of Scotland will, on passing inspection, be recorded as foundation stock.

(*e*) Animals descended from known ancestors not recorded in the Shetland Stud Book of Scotland, imported prior to January 1, 1909, will on passing inspection, be recorded as foundation stock.

Welsh Ponies.—(Standard 14.1.) (*a*) Animals imported from Great Britain and recorded in the Welsh Pony and Cob Society Stud Book.

(*b*) Animals, the sires and dams of which are recorded in the Welsh Section of the Canadian Pony Stud Book.

(*c*) Animals recorded in the American Welsh Pony and Cob Stud Book,

(*d*) Animals imported from Great Britain prior to January 1, 1909, not recorded in the Welsh Pony and Cob Stud Book will, on passing inspection, be recorded as foundation stock.

(*e*) Animals descended from known ancestors not recorded in the Welsh Pony and Cob Stud Book imported from Great Britain prior to January 1, 1909, will on passing inspection be recorded as foundation stock.

New Forest Ponies.—(*a*) Animals imported from Great Britain bred by reputable breeders—a certificate to this effect must be provided by the Secretary of the English "Society for the Improvement of the Breed of New Forest Ponies."

(*b*) Animals, the sires and dams of which are recorded in the New Forest Section of the Canadian Pony Stud Book.

Polo and Riding Ponies.—(Standard 14.2.) (*a*) Animals imported from Great Britain and recorded in the Polo and Riding Pony Society's Stud Book.

(*b*) Animals, the sires and dams of which are recorded in the Polo and Riding Section of the Canadian Pony Stud Book.

Exmoor Ponies.—(*a*) Animals imported from Great Britain bred by reputable breeders.

A certificate of breeding signed by the breeder must accompany the application for entry. Name of vessel on which imported and port of entry must be given.

(*b*) Animals, the sires and dams of which are recorded in the Exmoor Section of the Canadian Pony Stud Book.

Iceland Ponies.—(*a*) Animals imported direct from Iceland.

(*b*) Animals the sires and dams of which are recorded in the Iceland Section of the Canadian Pony Stud Book.

Applications for registration of imported ponies must be accompanied by proper certificates of identification.

Name and address of breeder must be supplied, name of vessel on which imported and port of entry.

Hackney Ponies.—(Standard 14.1.) Imported. Recorded in the English Hackney Stud Book.

(*a*) A stallion full registered will be given full registry.

(*b*) A stallion half-registered, if imported prior to January 1, 1909, will be given full registry.

(*c*) A mare full registered, will be given full registry.

(*d*) A mare half-registered will be given half-registry.

(*e*) A mare recorded as "Inspected" will be recorded as "Inspected."

Canadian Bred. By sires recorded in the Canadian Pony Stud Book.

(*a*) A stallion or a mare out of a dam full registered will be given full registry.

(*b*) A mare out of a dam half-registered will be given full registry.

(*c*) A mare out of an "Inspected" dam will be given half-registry.

(*d*) Mares not less than two years of age may be inspected; and, if accepted, will be recorded as "Inspected" foundation stock.

By sires recorded in the Canadian, American or English Hackney Stud Books:

(*a*) A mare provided her dam is a pony, recorded as inspected foundation stock, will be given half-registry.

(*b*) A mare out of a half-registered dam will be given half-registry.

Ponies recorded in the Canadian or American Hackney Stud Books:

(*a*) A stallion recorded as a pony in either the Canadian or American Stud Book will be given full registry.

(*b*) A mare recorded as a pony in either the Canadian or American Stud Book will be given corresponding registry.

The fee for registration is as follows: members for each registration, $1.00; nonmembers, $2.00; transfers 50c; duplicate certificates 50c; life membership $25.00; annual membership $2.00.

CLASSIFIED LIST OF STALLIONS

LIST OF STALLIONS ENROLLED SINCE AUGUST 1, 1912. CLASSIFIED BY RURAL MUNICIPALITIES.

Rural Municipality of ARGYLE No. 1.

PURE BRED.

Date of enrolment	Name of breed	Name of stallion	Name of owner	Address
June 28, 1913	Clydesdale	Prince of the East [8010]	J. Duncan, Wm. Potter & Joseph Porter	Gainsborough
Aug. 27, 1913	Clydesdale	The Real MacKay [8960]	William Dougan	Carievale
Oct. 17, 1912	Belgian Draft	Gamin —382 —	Geo. E. Birch	Carievale
